The metaverse: a continuum of technology and experience that reshapes business

TIME 10:15 AM – 11:00 AM Stazione Leopolda

–

Tommaso Nervegna – Metaverse Strategy Lead, Accenture

Umberto Cigognini – Art Direction Manager, Accenture

Over the next decade, the Metaverse will revolutionize almost all aspects of life and business, enabling new ways of internal collaboration and interaction with the ecosystem (in virtual spaces, augmented physical places and/or a combination of both), as well as the development of new business lines. For fashion and luxury companies, the advent of the Metaverse represents an opportunity to generate new value through an innovative strategy for managing relationships with customers, partners, and their own digital workforce.

Accenture's vision configures the Metaverse as a continuum of digitally enhanced worlds, realities, and business models. Together we will discover the first steps to take to enter this new dimension: the genesis of MetaBrands.

Coffee break

Phygital: a winning format in fashion – TIM's vision

TIME 02:15 PM – 03:00 PM Stazione Leopolda

– Antonio Baldassarra – Responsabile Vertical Marketing&Specialist Retail & Services, TIM

In the new “Phygital” format physical and digital channels merge: it is a new way of building the customer journey with hi-tech solutions combined with an omnichannel approach to create continuity between the physical and digital channels, optimizing the business. The new opportunities arisen also involve points of attention that must be analyzed and addressed: the protection of the 'creative heritage' and IT security, the transformation of the store into a place where to maximize the conversion rate, the “customer insight” from a client centric and non-channel dependant perspective, the digital transformation linked to the Cloud. The speech aims to present TIM's approach and the solutions that the companies of the TIM Group offer to the world of fashion in this path of evolution.

BORBONESE from Heritage to Future: NFC and Blockchain to tell a story of authenticity

TIME 03:00 PM – 03:30 PM Stazione Leopolda

–

Elena Verri – ICT Director, Borbone

Paolo Caffagni – CMO, BrandUp Solutions

A partnership in the name of sustainability: K3-Wuerth Phoenix and the Bradshaw Taylor case

TIME 03:30 PM – 04:00 PM Stazione Leopolda

–

Roman Jakob Clara – ERP Business Unit Manager Würth Phoenix

Marco Vergani – Chief Executive Officer, K3 Business Technologies

Paddy Devlin – Head of Business Technology, Bradshaw Taylor

Bradshaw Taylor is an outdoor and lifestyle organisation that has taken numerous retail brands to market throughout the UK, Europe, USA and Canada. As a family-run business established 25 years ago, it has since grown with the acquisition of multiple, respected brands in apparel, footwear and outdoor equipment.

However, the brands under the Bradshaw Taylor umbrella operated independently with their own business and finance functions. Thus, the business sought a solution that could unify the brands and reduce time spent having to manually consolidate data across the nine brands since the existing systems were still disparate and unconnected.

“The IT systems of each brand were outdated and required upgrading,” said Paddy Devlin, Head of Business Technology at Bradshaw Taylor. “This was the right time to re-engineer our business so that we could deliver a centralised, best practice solution to drive growth.

“With Xpedition (a K3 partner), we have digitally transformed and re-engineered the way we run our outdoor fashion business brands. The templated rollout process means we are now able to get our brands to market much quicker.”

Coffee break

TIME 04:00 PM – 04:30 PM Exhibition area

–

Product Experience Management in support of Pinko's digital innovation

TIME 04:30 PM – 05:00 PM Stazione Leopolda

–

Marco Ruffa – Digital Transformation Director @Pinko

Antonella Capelli – South Europe Fashion Sales VP @Lectra

The brand has defined a product experience rooted in its design and reinforced throughout its various stages of development. And it is only by focusing on the entire process, including distribution and sale, that the consumer can fully benefit from it.

This is why an integrated “Product eXperience Management” (PXM) platform has become a fundamental component of Pinko’s digital transformation and evolution.

Life-cycle management of products based on in-cloud technologies and the use and sharing of data represent a solid point in the continuous digital evolution of the brand.

Achieving efficiency and flexibility through automated supply chain planning

TIME 05:00 PM – 05:30 PM Stazione Leopolda

–

Michele Taranzano – Head of Planning Luxury Goods Division, Loro Piana

Paolo Barbagallo – Industry Manager Fashion&Luxury, sedApta

Round table: The future of retail and the new role of physical stores

TIME 04:30 PM – 05:15 PM Stazione Leopolda

–

A conversation featuring Chief Information Officers of important international fashion brands and experts about the role of physical stores in the current business scenario. Despite the profound changes taking place in retail, physical stores remain a reference for luxury brands, where product purchases will become more and more like an event, for which high-profile customers are willing to pay.

With:

Antonio Farini – Group CIO, Group CEO CRM, Group CEO digital division & e-commerce, Max Mara Fashion Group

Antonio Fratta Pasini – Head of IT, Calzedonia Group

Giacomo Santucci – President, Camera Buyer Italia

Moderated by Marc Sondermann, Editor in Chief and CEO of FASHION Magazine

Closing of the meeting

TIME 05:15 PM – 05:30 PM Stazione Leopolda

–

Rinaldo Rinaldi – Direttore Scientifico e-P Summit
